

Taikan PSP Pole Mount Power Supply Features:

- Ideal for pole mounting
- Indicator light when the power supply is in operation
- Suitable for use in areas where standby reserve power is not a requirement. Output voltage is 60 VAC Quasi-square wave.
- Possesses auto stable function and accepts input variation of $\pm 15\%$. Output regulation regulates at $\pm 2\%$.
- If a short occurs, the Ferro resonant transformer will fold back limited @ 150% of output rating, to prevent the transformer from being damaged.
- If an overload occurs, the output voltage will shut down to prevent the transformer from being damaged.
- Auto reset function for short or overload situations.
- Premium version includes external lock, thicker casing and internal power switch

Model Number	PSP-660W	PSP-960W	PSP-1260W	PSP-1560W	PSP-1569W
Output power	360W	540W	720W	900W	900W
Output current	6A	9A	12A	15A	15A/10A
Output voltage	60V 2% at full load				60V/90V
Output waveform	Quasi-square wave				
Input power supply	110V $\pm 15\%$ (or 220V $\pm 15\%$)				
Input frequency	50/60 Hz				
Protection	Short circuit protection				
	Over load current limit				
	Start-up output delay				
	Output surge protection				
Operating Temperature	-40 C ^o ~55 C ^o				

Specifications subject to change without notice. v9.00

Ordering Information

Standard Carton Qty	1
Chassis Dimension	19x17x31 cm/7.4x6.69x12 in
Weight	30 kg/ 60 lbs
